Specialists in 4x4 Van Conversions and 6x6 RV Conversions.

Professionalism Guaranteed Whitefeather converts new and used 2500, 3500 passenger and cargo vehicles, 3500 cab-and-chassis, RVs, ambulances, commercial and military Mercedes-Benz, Freightliner and earlier Dodge Sprinters with 5 cylinder 2.7 and the V6 3.0 diesel engines. All backed with our 3 year 36,000 mile ltd. Warranty. Experience: We have over 30 years and 3,000 conversions experience with sales in 46 countries.

To our knowledge, we are the only company in North America to convert Mercedes Sprinters (and other vans and RVs) to 4-and 6-wheel drive which is an important contribution to the automotive industry. You can take advantage of Sprinter's lowest cost per mile to operate, best in class safety features, highest resale value and easy to drive and maintain 4x4. Our van conversions are as easy to drive as a 2 wheel drive Sprinter, are off-road tough with impeccable road manners, precise handling and comfortable ride. The result is a Mercedes-Benz with that Mercedes-Benz "feel."

We anticipate most of our conversions will be used in North America so we build with all new top quality North American parts, easy to service long into the future. All of our conversions are certified US DOT legal for highway use and can be exported.

Other services available: We also convert new and used Ford, GM and Dodge vans, class B, B+ and C motor homes and front engine class A RVs up to 37 foot, classic cars, and trucks. Hitch installation and towing systems, van interior customization, and custom accessories. Whitefeather also does a lot of custom aluminum bumpers and front guards.
